very caring, and innocent. He was at my house [redacted] the night that this happened. We were drinking, goofing off, being silly, and all together just having a good time. In no way was he being violent. We even have a video from that night of us having fun. Pedie is in it singing and dancing. While we were hanging out, Pedie and [redacted] walked to the store. Little did we all know that this would be the last time we ever saw our beloved friend. Pedie was not a violent person. I don't think he has ever even been in a fight before. Whenever anyone else would start fighting, even if it was just an argument, he would be the one to try and make peace. Pedie was just intoxicated, I know for a fact that he was not reaching for the gun. The cop did not need to kill him. He could've just took him to jail for the night. These are people's lives and they matter. The cop needs to be taken off the force. My son will be growing up in Richmond. I already have enough to worry about, I shouldn't have to worry about cops like that being out there ready to take lives. Cops like that who feel that they are above the law. Cops are supposed to make us feel safe. I have talked to someone who was in their car at the store the night it happened. They told me of how Pedie had his hands up saying "Don't Shoot!" The replays in my head over and over. Pedie will never come back but

Please give him justice
